

# ICW2026

INNOVATIVE WEIGHING SOLUTIONS  
FOR A SUSTAINABLE WORLD!

**ICW** INTERNATIONAL  
CONFERENCE  
OF WEIGHING

8-10 June 2026

The second edition of the International Conference of Weighing (ICW) will take place from June 8th to 10th, 2026, at the Kitakyushu International Conference Center.

## Connect with participants from around the world!

The event aims to bring together stakeholders in the weighing sector for a three-day conference featuring presentations on the latest developments in the industry. It also serves as an **excellent opportunity to connect with participants from around the globe**. Following the success of the 2023 edition, we expect a high number of attendees from over 25 countries.

# Innovative Weighing Solutions for a Sustainable World

June 8-10, 2026

Kitakyushu International Conference Center, JAPAN

After the successful inaugural event in Hamburg, hosted by CECIP, the second edition in 2026 will be led by the Japanese Measuring Instruments Federation (JMIF). As in 2023, the program will consist of three parallel sessions: Legal Metrology, scientific metrology and applied metrology. The conference is coordinated by two international steering committees (Asia-Australia-Europe and America-Europe), which meet every 6-8 weeks to ensure the event's success.

## Governance

The International Conference of Weighing is organized by a collaboration of national, regional, and global organizations involved in the weighing sector. The edition 2026 is hosted by the JMIF in close collaboration with CECIP.
